# EDITORIAL

My dear clients,

We wanted to highlight two inseparable ingredients in this new FLEXIPAN® catalog, two ingredients we believe to be the reason behind the success of our brand and our products for thirty years: people and innovation.

**At FLEXIPAN®, people are at the heart of innovation.**

Because, yes, it's thanks to the men and women in our innovation department that we can come up with and design products that keep raising the bar, year after year.

It's thanks to the men and women in our factory that we can make products that are ever-more durable and robust, year after year.

**Innovations that feed your creativity.**

And finally, it's thanks to you, our dear clients, thanks to your creativity and your constant striving for excellence, that we can offer contemporary products that align with the requirements of your professions, year after year.

We have imbued this catalog with our people, our savoir-faire, and our innovations. We hope it inspires you and awakens new ideas in you.

Happy reading... and happy cooking!

DISTINCTION HAS A NAME. YOURS.

*The Pastry Business Unit's Marketing Team*

L'EXCEPTION PORTE UN NOM, LE VÔtre.

In its 50 years of existence, FLEXIPAN® has become the uncontested leader in non-stick molds for professionals working in pastry and all other food-related professions.

Every day, we design, develop, manufacture, and distribute a large range of products that make over 50,000 people's jobs easier in 120 countries around the world.

Throughout the years, FLEXIPAN® has established itself as a pioneer in its field, building its success with state-of-the-art technology and the tried-and-tested quality of its products.

New shapes, new technology, new digital content... We're also constantly innovating to meet our clients' expectations and give them tools that let their creativity sing!

We have already won over thousands of professionals with our teams' reactivity, our ability to develop bespoke solutions, and our sense of innovation.

SERVING INNOVATION...  
& PROFESSIONALS  
**FOR 50 YEARS**

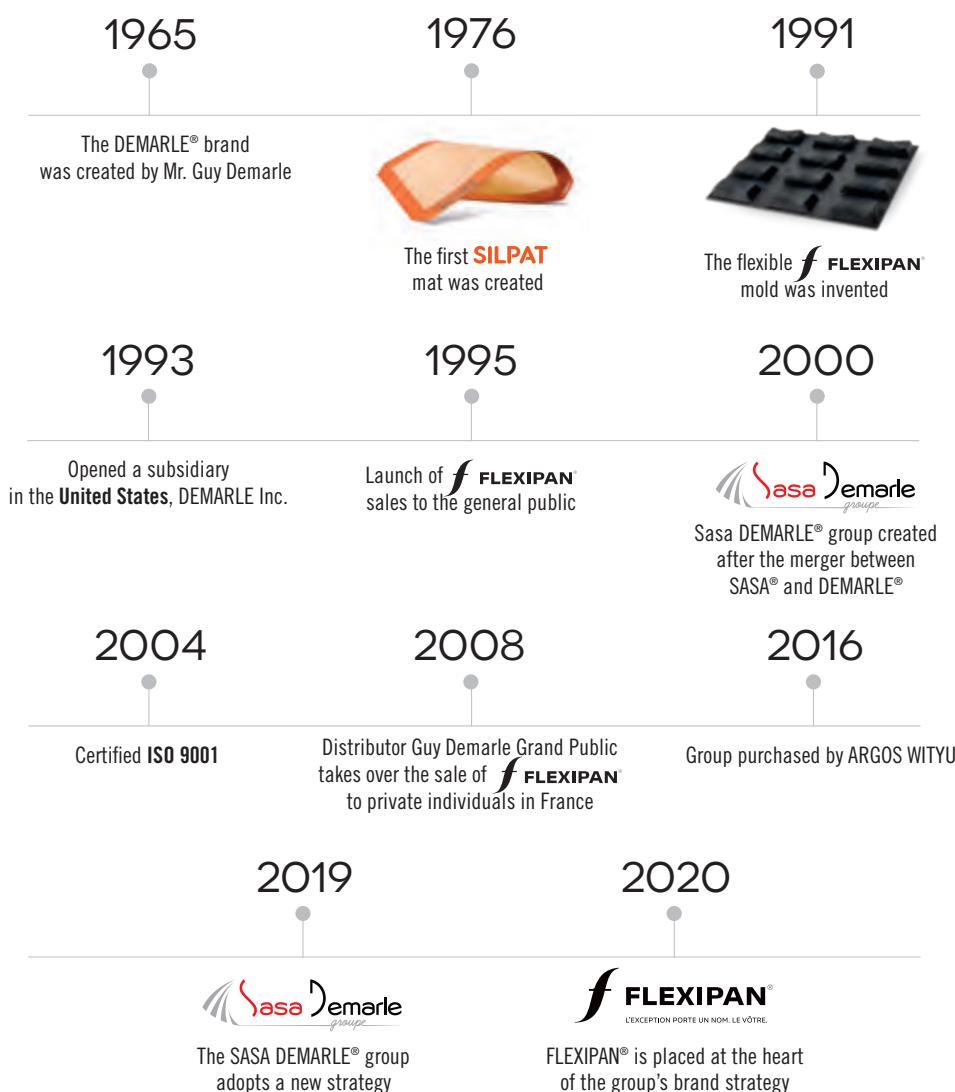

# A history OF EXCELLENCE...

At FLEXIPAN®, we have always thought that pâtisserie plays a special role in French culture.

It's a savoir faire, an art of living that is much loved abroad, with disciples in all four corners of the world. Making high-quality pastries requires savoir-faire, quality ingredients, and, of course, the right tools, whether it's done at an industrial scale, by a professional, or by a consumer.

Our ambition is to become known as the most innovative and highly performing manufacturer on the market who also has perfectly mastered making exceptional breads, viennoiseries, and pastries.

We have stayed faithful to this since 1965... and it won't change any time soon!

...sprinkled with a few  
**ESSENTIAL  
INGREDIENTS**

## CREATIVITY & PRAGMATISM

We develop ideas that lead to concrete projects and create value. We build on our understanding of tradition and savoir-faire to move forward.

## RESPONSIBILITY & COLLABORATION

We encourage group work without losing sight of every individual and every department's own responsibilities. We believe in collective intelligence.

## GOODWILL & HIGH STANDARDS

We promote initiatives that develop our employees' skills and boost how much they contribute to our strategy.

## ETHICS & TRANSPARENCY

We work in compliance with our certifications and quality, health, safety, and environmental regulations, and are committed to CSR. We believe that diversity is valuable.

**f** **FLEXIPAN®**

## The Men & Women of FLEXIPAN®

**E**veryone working for us shares one goal: to provide our clients around the world with the best products and the best service.

Starting with the men and women on our two production sites in the North of France, Wavrin and Cateau-Cambrésis. Every day, they shape hundreds of molds, mats, and other products made just for pastry.

Their names are Myriam, Michel, Angélique, Sylvia, Marcel, Karine, Laurent, Isabelle, Jocelyne, Freddy, and Dominique. They have between 10 and 22 years of experience and a long history with the brand.

They are a few of the “expert hands” behind FLEXIPAN®, with a true mastery in how our products are made. The process requires carefully measured movements, close attention, rigor, and great care.

From cutting fabric to dip coating, brushing to molding, removing defects to unmolding, without forgetting quality control, curing, and painting... Each and every one of them knows their part like the back of their hand.

They're more than just expert hands; they're driving forces with unique expertise on which the excellence of our factories and the FLEXIPAN® brand have been based for decades.

OF FLEXIBLE MOLDS

A golden partnership!

We are proud to be a “GOLD SPONSOR” of the prestigious World Pastry Cup, supporting the regional French selections and the 2021 Grand Finale in particular.

Bringing together  
the best pastry chefs

Every other year, the World Pastry Cup pits young, up-and-coming pastry chefs from around the world against each other. After 50 national selections and 5 continental qualifiers, representatives of 20 different countries meet in Lyon, at the Sirha trade fair, to celebrate the art of pastry.

Each team is made up of three pastry chefs that have mastered their field: a chocolate artist, a dessert specialist, and an ice cream expert.

They face 10 hours of challenges during which they have to make unique desserts and ephemeral works of art in front of an audience of pastry lovers and a jury made up of celebrated pastry chefs.

The World Pastry Cup is an excellent way to bring pastry chefs to the fore. It is also a superb showcase for contemporary pastry, a way to show off the most innovative of techniques and shape trends in taste and design.

We are honored to be able to contribute to the next edition... with our excellent products. Make way for the show!

MADE IN FRANCE

## Flexible molds inspired by chefs' creativity

Since its launch in 1991, FLEXIPAN® has been creating premium products meant for culinary excellence.

So for the past 30 years, chefs all around the world have been our best ambassadors, as well as our main source of inspiration!

They create, we invent...  
They perfect, we optimize...  
They dream, we conceptualize...

### It is a truly creative virtuous circle!

We share the same challenges, our solutions provide answers to their problems. We want to inspire in them the same kind of feelings and pleasure that they give to their customers every day.

With FLEXIPAN®, there are no limits to your creativity and everything you make is sure to be excellent!

Can be used for cooking and freezing (from -40 °C to 240°C/ -40 °F to 465 °F)

Tray format adapted to mass production

Can be easily cleaned with water

Even cooking and browning

Optimally non-stick for perfect unmolding

Long lifetime:  
may be used more than 3,000 times depending on the product.

## And Mr. Guy Demarle said let there be cooking mats

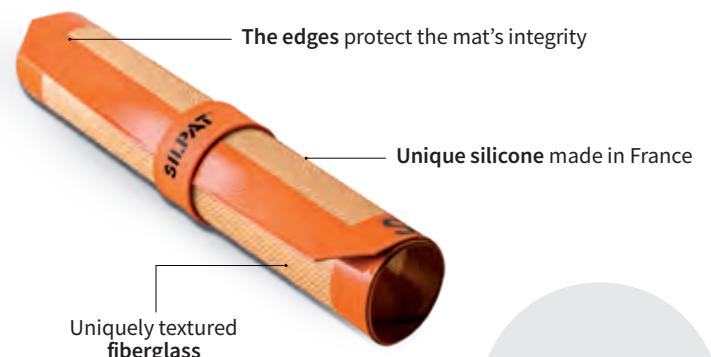

In 1976, Mr. Guy Demarle set out to develop a better way to prepare and cook baguettes.

He invented a new cooking mat that revolutionized the professional bakery industry at the time and helped him make the best baguettes in France.

He named his non-stick mat SILPAT®, the very first SILPAT®-brand product, because it contained silicone and was manufactured using a canvas.

With over 50 years under its belt, Demarle now offers a full range of proofing and cooking mats that are sure to tick all the boxes.

Show off all your expertise with SILPAT®!

## FLEXIPAN® ORIGINE Range The Origin of your Excellence.

The Demarle brand revolutionized the bakery and pastry world when they invented FLEXIPAN® ORIGINE in the early '90s.

Thirty years later, FLEXIPAN® ORIGINE remains the leading reference in flexible molds and has always been among the best-selling pieces of equipment in the entire food trade.

What's its secret? Its unique technology! The combination of fiberglass and food-grade silicone make it incomparably strong, durable, and non-stick. No need to grease the molds, everything will pop out of them perfectly.

### The icing on the cake with FLEXIPAN® ORIGINE

- Uniquely textured fiberglass provides premium strength
- Food-grade silicone specially formulated by our lab
- Perfect, clean unmolding
- Even cooking and browning
- A lifetime of over 3,000 cycles
- Can be used to cook and freeze, both for sweet and savory foods

**Indent dimensions**  
Length 60 mm | Width 35 mm  
Depth 10 mm

**Also available in:**  
**FP-01984** | 600x400 mm  
Number of indents: 70

## OCTAGONS

**Mold dimensions**  
**FP-01560** | 600x400 mm  
Number of indents: 40  
**Indent dimensions**  
Length 43 mm | Width 40 mm  
Depth 26 mm

**Also available in:**  
**FP-02560** | 400x300 mm  
Number of indents: 20

## TRIANGLES

**Mold dimensions**  
**FP-01785** | 600x400 mm  
Number of indents: 24  
**Indent dimensions**  
Length 95 mm | Width 70 mm  
Depth 25 mm

**Also available in:**  
**FP-02985** | 400x300 mm  
Number of indents: 40  
**FP-03124** | 300x200 mm  
Number of indents: 6  
*The indent is also available in Mini:  
**FP-01985** | 600x400 mm*  
Number of indents: 80

## SQUARES

**Mold dimensions**  
**FP-01133** | 600x400 mm  
Number of indents: 35  
**Indent dimensions**  
Length 56 mm | Width 56 mm  
Depth 24 mm

**Also available in:**  
**FP-02133** | 400x300 mm  
Number of indents: 15

**Also available in Mini short squares:**  
**FP-01106** | 600x400 mm  
Number of indents: 60  
**FP-02106** | 400x300 mm  
Number of indents: 30  
**FP-03106** | 300x200 mm  
Number of indents: 15

**Also available in Mini tall squares:**  
**FP-01128** | 600x400 mm  
Number of indents: 60  
**FP-02128** | 400x300 mm  
Number of indents: 30

## SQUARE INSERT

**Mold dimensions**  
**FP-01748** | 600x400 mm  
Number of indents: 6  
**Indent dimensions**  
Length 150 mm | Width 150 mm  
Depth 15 mm

### MINCE PIES

*Mold dimensions*

**FP-01066** | 600x400 mm

Number of indent: 40

*Indent dimensions*

Diam. 58/40 mm

Depth 20 mm

*Also available in:*

**FP-02066** | 400x300 mm

Number of indent: 20

### CUPCAKE

*Mold dimensions*

**FP-03051** | 600x400 mm

Number of indent: 24

*Indent dimensions*

Diam. 73/55 mm

Depth 40 mm

*Also available in:*

**FP-02051** | 400x300 mm

Number of indent: 12

### SCALLOP SHELLS

Just like our classic Shell mold, our Scallop Shell mold will get you surfing an original wave!

Find the right recipe and get everyone on board for a tasty trip.

*Mold dimensions*

**FP-03067** | 300x200 mm

Number of indent: 6

*Indent dimensions*

Length 80 mm | Width 75 mm

Depth 20 mm

*Also available in:*

**FP-02067** | 400x300 mm

Number of indent: 12

*FP-01067* | 600x400 mm

Number of indent: 24

*Get everyone on board  
for a tasty trip...*

## HALF-OVAL

To make perfect, tasty half-ovals, take our 9-indent mold, add a generous amount of your creativity, your technique and... voilà!

That's what we call a recipe that will make the rounds!

**Mold dimensions**  
**FP-03052** | 300x200 mm  
Number of indents: 9

**Indent dimensions**  
Length 60 mm | Width 40 mm  
Depth 25 mm

For a recipe  
That will make the rounds!

### INNOVATION ROUNDED PETALS

**Mold dimensions**

**FP-02376** | 400x300 mm

Number of indents: 15

**Indent dimensions**

Length 79 mm | Width 49 mm

Depth 25 mm

### MINI DROPS

**Mold dimensions**

**FP-01144** | 600x400 mm

Number of indents: 56

**Indent dimensions**

Length 52 mm | Width 32 mm

Depth 20 mm

Also available in:  
**FP-02144** | 400x300 mm  
Number of indents: 28

### MINI EGGS

**Mold dimensions**

**FP-01256** | 600x400 mm

Number of indents: 56

**Indent dimensions**

Length 55 mm | Width 35 mm

Depth 20 mm

Also available in:  
**FP-02256** | 400x300 mm  
Number of indents: 28

### OVALS WITH FLAT BOTTOMS

**Mold dimensions**  
**FP-01077** | 600x400 mm  
Number of indents: 64

**Indent dimensions**  
Length 57 mm | Width 35 mm  
Depth 12 mm

Also available in:  
**FP-02077** | 400x300 mm  
Number of indents: 32

### OVALS

**Mold dimensions**

**FP-01270** | 600x400 mm

Number of indents: 30

**Indent dimensions**

Length 70 mm | Width 50 mm

Depth 30 mm

Also available in:  
**FP-03270** | 300x200 mm  
Number of indents: 8

**FP-04206** | 300x200 mm

Number of indents: 20

**FP-02776** | 400x300 mm

Number of indents: 12

**FP-03206** | 400x300 mm

Number of indents: 12

**FP-02270** | 400x300 mm

Number of indents: 15

The indent is also available in Mini:  
**FP-01267** | 400x300 mm  
Number of indents: 25

**FP-02267** | 600x400 mm

Number of indents: 50

**FP-07267** | 300x200 mm

Number of indents: 20

## CHOCOLATE BAR

Your clients will develop a taste for perfect and delicious chocolate bars once your excellence in the kitchen and our 6-indent mold start working together.

Unless they prefer to keep their six-pack looking as defined as a chocolate bar...

## FLEXIPAN® AIR Range

For creations that will take your breath away!

FLEXIPAN® AIR molds have become indispensable in the fields of breadmaking and baking. They're perfect for making calibrated, completely homogeneous products.

Thanks to their silicone and fiberglass structure – two components that make for excellent, airy baked goods – heat is able to circulate very well and create a finished product that is nicely browned and crisp.

The FLEXIPAN® AIR range comprises a wide variety of different shapes that you can use to come up with a varied, creative offering of snacks. Square or round bread rolls, for example, are ideal for hotels and restaurants.

### The icing on the cake with FLEXIPAN® AIR

- Patented technology
- Unique fiberglass composition for superior durability
- Honeycombed texture for even browning
- A finished product that is crisp on the outside and soft inside
- A lifetime of 1,500 cycles with no risk of sticking
- Stands up to cooking and freezing perfectly

## SILPAT® baking mats

The mats you have always dreamed of.

They need no introduction; everyone already knows all about them.

"They" refers to SILPAT® mats, which have by and large replaced baking paper and become a must-have for industry professionals the world over.

This has been made possible over the years by how SILPAT® mats can be used to do so many things.

Be it in pastry, cooking, or chocolate-making, SILPAT® mats make it remarkably easy to prepare and cook whatever you're creating. Their non-stick silicone coating also facilitates handling baked goods.

They are available in a variety of sizes and are compatible with all kinds of work supports.

### The icing on the cake with our SILPAT® mats

- Versatile non-stick mats for sweet and savory baked goods
- Can be used for freezing, fermentation, and cooking
- A wide variety of sizes
- Compatible with different tray sizes

/  
COOKING BECOMES AN ART  
WITH SILPAT® MATS!

/

COOKING MATS  
**SILPAT**

## SILPAT COOKING MATS • Cooking Mats

Have everything you make come out perfect and cooked evenly.  
Patented SILPAT® technology fiberglass and non-stick food-grade silicone.

## Baking trays. Everything you need to reach a high degree of excellence.

Unperforated trays, perforated trays that improve heat transfer, faster cooking, better browning, coated or uncoated trays, trays with 45° or 90° rims, presentation trays to use in store...

The Demarle brand also offers a wide range of baking trays that can satisfy even the most exacting standards and highlight just how well you do your job.

### **The icing on the cake with our trays**

- Choose between different sizes, kinds of perforation, and rim angles
- Food-grade aluminum that perfectly diffuses and conducts heat
- Coating options: INFINIUM 306, INFINIUM 6001, or no coating
- Compatible with a wide range of carts and ovens
- Made in France

YOUR CREATIONS WILL NEVER GO ASTRAY  
WITH OUR BAKING TRAYS!

## ADVICE MAINTENANCE

FILLING

COOKING AND FREEZING

Always place your mold on a perforated tray or an oven rack before filling it to make it easier to transport it to the oven or freezer. We recommend filling the empty indents with a piece of dough or water to make sure they don't lose their non-stick coating.

UNMOLDING

Deform the mold to unmold frozen and jellified products and turn it over to unmold baked goods. **Never use a knife or anything with a sharp edge.** You should generally unmold immediately after removing the mold from the oven. You can let more delicate products cool before unmolding.

CLEANING

We recommend that you wash our products regularly using a soft, non-abrasive sponge. Built up fat negatively affects the material's service life over time. Dose your detergent based on the recommendations on its data sheet (pH between 5 and 10). To speed up drying after washing, put them in the oven at 100°C for 2 minutes.

STORAGE

Store the molds upside down in piles of up to 6 at most. We recommend storing some straight, very deep indents in piles of 2 to prevent them from losing their shape over time. **We do not recommend that you store the molds folded.**
